	<i>"Hi, I can't believe I finally found some proof to validate the existence of this BBS! I also can't believe your webpage is the only reference to Reno's Tavern on the entire world wide web. I used this BBS extensively to chat with and meet girls in Hawaii when I was stationed there in the Navy 1987-1990. So when I saw the dates as 1992-1994, I just wanted to let you know it was around before that! Now, if we could only find Reno!" - Anonymous</i>		
	<i>"Reno's Tavern (please add Reno Tolentino as the SysOp) was one of the hottest multinode systems in the state at the time, and one of the BBSs on which I hung out all the time. Ahhh the golden days of BBSing!" - Royce</i>

*"Wow! What a blast from the past! A listing of my old BBS! That's a lot of exclamations! Unfortunately, someone else is listed as the sysop of the the BBS and the years are off. I am (well, was) the sysop of that BBS. I moved away from HI in 1993 so it couldn't have run there past that time. Thanks for maintaining such an awesome resource. Dan (aka PennYwisE: Sysop of "Vampyre's Lair" and "The Dark Half" before it)" - Dan Hutchins*
